DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Examiner was unable to locate a reference to anticipate claim 1. The closest reference the Examiner was able to locate was:
 - Spier US 3,235,145. The embodiment of figure 6 teaches a cylindrical pin (108), tubular shaft (106), rotation tube (112), and a locking protrusion ring (110). The reference at least fails to teach a small cylinder, locking part and torque adjusting protrusions required by claim 1. No motivation could be found to modify the reference to obviate claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892 citing relevant references.
